REQUEST: \$4,000.00 general funding for archival supplies for the BHC

EXPLANATION:

In July, the administrative office sent \$4,000 to the Purchasing Dept. so that the BHC would be able to order archival supplies quickly, from a variety of vendors. Due to the high volume of archival activity over the last six months, we have now spent all but just under \$300.00 of that money.

I am requesting another infusion of \$4,000.00 for the second half of the year. Our work means that we always need to have certain supplies on hand and that we should be able to order project-specific supplies in a timely fashion when the need arises. Being able to order archival supplies over the last few years has aided us in making tremendous progress in the storage and housing of BHC materials or just being able to process collections and make them available for the research public.

In the past year, BHC has processed several large collections, including the 92+ box Katya and Bert Gilden collection (local authors and labor activists), HECUS (Higher Education Center for Urban Studies), the papers of Herman Steinkraus (Bridgeport Brass), and the School Volunteer Association. Archivists have also processed and re-housed numerous smaller archival collections and created new, more appropriate storage for many individual manuscript items, photographs, ephemera, and objects. In late December or early January, the department will be undertaking the re-housing, inventorying, and reconfiguration of storage for the large collection of circus wagon carvings by local artist Raymond Fletcher, a long overdue process that will require ordering new, specially sized archival boxes.

Thank you,
