Scannx 1-year Standard Warranty and Extended Warranty Offerings

1. **1-year Manufacturer's Standard warranty under depot repair.** Depot Repair is defined as follows:

   a. Upon installation, CCP Solutions offers a no-charge web demonstration, training and certification of the Book ScanCenter for your IT System Administrator. Training includes how to install, use, test and make minor modifications to the Book ScanCenter's Touchscreen menu options.

   b. If the Customer's IT Systems Administrator (SA) for the Book ScanCenter detects any defects in the proper functioning of the Book ScanCenter, the Customer may call CCP Solutions Customer Support Center (CSC) at 510-296-5666 during the hours of 8:00am to 4pm PST, Monday through Friday.

   c. If CSC cannot assist Customer's SA in having the Book ScanCenter run reliably to your SA's satisfaction, Scannx issues an RMA to customer to ships the defective unit to Scannx, Inc., (Martinez, CA). Scannx repairs or replaces it and sends it back to customer via ground transportation (return freight at Scannx's expense).

   d. The SA will install the replacement unit (either the scanner, the Touchscreen PC or both depending upon the determination of what is not working) with phone support from CSC.

   e. The annual hardware service agreement will also cover any software updates to the Book ScanCenter during the first year of the service agreement. Please note that the Book ScanCenter is not updated based upon every major Windows operating system release or third party software release.

      i. All software updates that eliminate bugs from prior versions are automatically updated at no charge.
      ii. Abusive destruction of any device is not covered under this warranty (such as broken glass, spilled liquids, etc).

2. **Extended Warranty Offerings:**

   a. The Customer may extend its hardware or software warranty for up to three (3) years and upgrade the service level from depot repair to 1-4 day advance exchange. Under the exchange program, if CCP Solutions CSC cannot assist the customer's IT staff in successfully rebooting the system to work correctly, CCP Solutions will ship a replacement unit for delivery within 1 day in most cases and up to 4 days maximum excluding holidays, via ground service.

Extended Warranty Offerings:

Hardware
Advanced Exchange Service   Book ScanCenter
Year 1: Service Advanced Exchange service program $650 per unit per year

Software

The advanced exchange extended warranty includes technical support, bug fixes and version upgrades to Scannx supported Microsoft Windows OS versions (currently Windows 10). The extended warranty agreement does not cover annual fees charged for optional fee-based connectors such as Blackboard and CBORD. The warranty is voided if customer uses the software in any unauthorized manner or does not pay for the extended warranty according to the terms and conditions of payment.
